

## INDEX

- accessories used to mount MK 19 (see mount)
- adjustment of fire, 5-35
- adverse conditions, operation under, 2-23
- AE (see angle of elevation)
- aiming devices, G-1
- alignment guide, 2-11 (illus)
  - installing, 2-16
  - removing, 2-10
- ammunition can bracket, 3-19
- angle of elevation (AE), 5-32, 5-34 (illus)
- angle of sight (AS), 5-32, 5-34 (illus)
- Annual Gunnery Training Program, E-1
- AN/PAS-13B (v) 3 HWTS (heavy weapon thermal sight), G-9 (illus)
  - components, G-9
  - controls, G-10 (illus), G-11 (table)
  - dismounting and mounting, G-13
  - modes of operation, G-9
  - status indicators, G-12, G-13 (illus)
- AN/PEQ-2A, G-1 (illus)
  - boresighting, G-8
  - controls, G-2
  - dismounting and mounting, G-7
  - major components, G-2 (table)
  - zeroing, G-8
- AN/TVS-5, G-14, G-15 (illus)
  - components, G-15 (table)
  - controls, G-15
- AN/TVS-5 sight reticle, G-16 (illus), G-17
- APC (see armored personnel carrier)
- armored personnel carrier (APC), 3-1
- AS (see angle of sight)
- assembly of MK 19, 2-16
  - feed slide, 2-10, 2-17 (illus)
    - installing, 2-16
    - positioning, 2-21
  - feed throat,
    - attaching, 2-20 (illus)
    - installing, 2-19
  - sear, 2-16 (illus)
    - installing, 2-19
  - top cover, 2-9 (illus)
    - installing, 2-17
    - opening, 2-5 (illus)
  - vertical cam, 2-15 (illus)
    - installing, 2-18
    - removing, 2-14
- backplate pin, 2-13 (illus)
- CALFEX (see combined arms live-fire exercises)
- carriage and cradle assembly, 3-16 (illus)
  - attach to train and elevating assembly, 3-18
- cartridges, 1-4
  - 40-mm, 1-8 (illus)
  - HEDP M430, 1-4
  - HE M383, 1-5
  - M918 dummy, 1-5
  - M922, 1-5
- charger assemblies, 2-15 (illus)
  - install left and right, 2-16
  - removal, 2-15
- charger handles, 2-6 (illus)
- cleaner lubricant petroleum (CLP), 2-22
- cleaning of MK 19,
  - general instructions, 2-22
    - when, 2-23
  - high-friction areas, 2-22
  - lubricants, 2-22
- clearance procedures, 2-4
  - firing situation, 2-4
  - nonfiring situation, 2-6
- CLP (see cleaner lubricant petroleum)
- combined arms live-fire exercises, E-2

- crew drills, H-1
  - drill area, H-1
  - equipment, H-1 (table)
  - formation, H-2 (illus)
  - inspection, H-2
  - placing gun into action, H-3
  - taking gun out of action, H-12
- cycle of operation, 2-1 (illus)
  - blowback and automatic feeding, 2-3 (illus)
  - charging, 2-1 (illus)
  - cocking, 2-2 (illus)
  - extracting, 2-2 (illus)
  - firing, 2-2, 2-3 (illus)
- DA Form 7518-R, MK 19 Day Practice and Qualification (Hull Targets), 4-30
- DA Form 7520-R, MK 19 Day Practice and Qualification, (Pop-up Targets), 4-31
- DA Form 7519-R, MK 19 Night Practice and Qualification with Hull Targets and Night Vision Devices (NVDs), 4-33
- DA Form 7521-R, MK 19 Night Practice and Qualification with Pop-up Targets or without Night Vision Devices (NVDs), 4-34
- defilade position 5-29, 5-30 (illus)
  - advantages, 5-29
  - disadvantages, 5-30
  - forward or reverse slope, 5-30
  - methods, 5-30
- degraded fire conditions, 5-38
  - fog or smoke, 5-39
  - NBC (nuclear, biological, chemical) environment, 5-39
  - night, 5-38
- description, 1-1
- destruction (see methods of destruction)
- diagnostic gunnery test, D-1
- direction reading, 4-7 (illus)
  - laying gun for, 4-6
  - major, 4-7
  - minor, 4-7
  - record readings to all targets, 4-6
- disassembly, 2-8
  - MK 19 disassembled, 2-7 (illus)
- dismounting, H-13
- elevating handwheel, 3-3
- elevation, 5-32
  - aiming-point, 5-33, 5-35 (illus)
  - computed quadrant, 5-33 (illus)
  - measured quadrant, 5-33
- elevation reading, 4-6, 4-8 (illus)
- engage targets, H-18
- exercises, 4-8
  - coach and gunner, 4-12 (illus)
  - determining the range, 4-13
  - gunnery (see gunnery exercises)
  - individual gunner and qualification, 4-26
  - ammunition, 4-28
  - day and night practice and qualification, 4-26
  - day practice and day qualification, 4-29
  - fire control, 4-28
  - grading, 4-28
  - night practice and night qualification, 4-27, 4-32
  - range setup, 4-27
  - scorecard preparation, 4-32
  - scoring, 4-27
  - manipulating, 4-11
  - practice, 4-11
  - shift direction and correct initial lay, 4-12
  - preparing a range card (see also range card), 4-13, 4-15
  - sight and aiming, 4-8
  - sight setting and laying, 4-10
- 40-mm cartridges, 1-8 (illus)
- feed slide assembly, 2-10, 2-17 (illus)
  - installing, 2-16
- feed tray, 2-10 (illus)
  - installing, 2-16
  - removing, 2-10

fighting position, 4-4  
     dug-in, 4-4 (illus)  
 fire characteristics, 5-1  
 fire classes, 5-2  
     respect to the ground, 5-1  
     respect to the MK 19, 5-4 (illus)  
     respect to the target, 5-2, 5-3 (illus)  
 fire commands, 5-12  
     initial, 5-12  
     subsequent, 5-15  
 fire conditions, degraded, 5-38  
     fog or smoke, 5-39  
     NBC (nuclear, biological, chemical)  
         environment, 5-39  
     night, 5-38  
 fire control, 5-11  
 firing positions, 4-1  
     hasty tripod (kneeling), 4-3 (illus)  
     sitting 4-1, 4-2 (illus)  
     standing, 4-3 (illus)  
 firing ranges, 4-22  
     multipurpose machine gun (MPMG),  
         4-2 (illus)  
     observation and adjustment of  
         fire, 4-25  
     operation procedures, 4-23  
         firing, 4-24  
         for coaches, 4-24  
         zeroing, 4-24  
 firing table, F-1  
 five major assemblies, 1-3 (illus)  
 front sight on top cover assembly,  
     1-3 (illus)

GMD (see grease molybdenum  
     disulfide)  
 gunnery exercises, E-2 (table), I-1  
     collective, I-9  
         area targets, I-12 (table)  
         linear and deep targets, I-9,  
             I-10 (table)

    individual, I-1  
     instructional fire, I-1, I-2 (table)  
         dismounted range card,  
             I-3 (table)  
         mounted combat, I-5, I-6  
             (table)  
         night fire, I-7, I-8 (table)  
 gunnery skills test, D-6  
 grease molybdenum disulfide, 2-22

HEDP M430 cartridge, 1-4  
 HE M383 cartridge, 1-5  
 high-mobility multipurpose wheeled  
     vehicle (HMMWV), 3-1  
         pedestal, 3-14 (illus)  
 history of MK 19, 1-1  
 HMMWV (see high-mobility  
     multipurpose wheeled vehicle)

intermediate gunnery test, D-1

LAW (see lubricant, automatic weapons,  
     arctic)  
 LFX (see live-fire exercise)  
 live-fire exercise, E-1  
 LSA (see lubricant oil, semifluid,  
     automatic weapon)  
 LSAT (see lubricant oil, temperate)  
 loading procedures, 2-20  
     before and during, 2-20  
     of first round, 2-20 (illus)  
 lubricant, automatic weapons, arctic  
     (LAW), 2-22  
 lubricant oil, semifluid, automatic  
     weapon (LSA), 2-22  
 lubricant oil, temperate (LSAT), 2-22  
 lubricants (see separate entries)  
     high-friction areas, 2-22

M66 ring, 3-21  
 M88 recovery, 3-21  
 M918 dummy cartridges, 1-5  
 M922 cartridge, 1-5

M966 HMMWV (high-mobility multipurpose wheeled vehicle), H-16  
     MK 19 mode to TOW 2, H-16  
     TOW 2 to MK 19 mode, H-17  
 major assemblies, 1-3 (illus)  
     bolt and backplate, 1-2  
         installation, 2-18, 2-19 (illus)  
         removal of, 2-14 (illus)  
     feed slide and tray, 1-2  
         to separate, 2-10  
     feed throat, 1-2  
     receiver, 1-2  
     top cover, 1-2  
 major components, 2-8 (table)  
 malfunctions, stoppages, corrections, 2-22, 6-2 (table), C-4  
 masking clearance, 5-34  
 MGS (see missile guidance system)  
 MK 19 Day Practice and Qualification (hull targets), DA Form 7518-R, 4-30  
 MK 19 Day Practice and Qualification (pop-up targets), DA Form 7520-R, 4-31  
 MK 19, 40-mm grenade machine gun, MOD 3, 1-1 (illus)  
 MK 19 Night Practice and Qualification with Hull Targets and Night Vision Devices (NVDs), DA Form 7519-R, 4-33  
 MK 19 Night Practice and Qualification with Pop-up Targets or without Night Vision Devices (NVDs), DA Form 7521-R, 4-34  
 MK 64 gun cradle, 3-1 (illus)  
     alignment to traverse and elevating (T&E) mechanism, 3-5 (illus)  
     mount on M3 tripod, 3-2  
 methods, defilade position, 5-30  
     aiming-point, 5-31 (illus)  
     aiming-stake, 5-31  
     direct-alignment, 5-30  
     map and compass, 5-31, 5-32 (illus)  
 methods, of destruction, 2-23  
     burning, 2-24  
     demolition, 2-24  
     disposal, 2-24  
     gunfire, 2-24  
     mechanical, 2-24  
 mil relationship, 5-8 (illus)  
     computing direction shifts, 5-9 (illus)  
     obtain width, range, or angle A, 5-8  
 missile guidance system (MGS)  
 mount MK 19, accessories used, 3-9  
     bracket mounting assembly, 3-12 (illus), 3-20 (illus)  
     empty case catch bag, 3-13 (illus), 3-20  
     gun cradle, 3-9  
     M66 ring, 3-21  
     M88 recovery, 3-21  
     pintle adapter, 3-9, 3-10 (illus)  
     train and elevating assembly, 3-10, 3-11 (illus)  
     travel lock adapter, 3-11 (illus)  
     travel lock bracket, 3-11 (illus)  
     vehicle mounts, 3-13  
         commander cupola, 3-21  
         high-mobility multipurpose wheeled vehicle (HMMWV)  
         weapon platform, 3-13  
     weather cover, 3-21  
 MPMG (see multipurpose machine gun)  
 multipurpose machine gun, 4-2 (illus)  
  
 ogive plunger, 2-11 (illus)  
 operating precautions, 2-4  
 operational data, 1-7 (table)  
 operations checklist, B-1  
 overhead cover, 4-4  
     install, 2-16  
  
 PIBD fuze (see point initiating, base detonating fuze)  
 pintle adapter assembly, 3-15 (illus)  
     insert in pintle bushing, 3-3 (illus)  
     insert on high-mobility multipurpose wheeled vehicle (HMMWV)  
     pedestal, 3-13

placing into action, H-3  
     ammunition bearer, H-7, H -8 (illus)  
     assistant gunner, H-3  
     gunner, H-5 (illus)  
 PMCS (see preventive maintenance checks and services)  
 point initiating, base detonating (PIBD)  
     fuze, 1-4  
 predetermined fires, methods, 5-39  
     field-expedient, 5-39, 5-40 (illus)  
     traverse and elevating (T&E)  
         mechanism, 5-39  
 preventive maintenance checks and services (PMCS), 2-22  
 primary drive lever, 2-15 (illus)  
     engage, 2-18  
     removing, 2-14  
  
 QE (see quadrant elevation)  
 quadrant elevation (QE), 5-32, 5-34 (illus)  
  
 range, 1-2  
     fine and major adjustments, 1-2  
 range card, sketch of area on, 4-15 (illus)  
     data section information, 4-20 (illus)  
     determination of range the circles represent, 4-21 (illus)  
     distance and azimuth to terrain, 4-16 (illus)  
     limiting factors, 4-19 (illus)  
     marginal information, 4-19 (illus)  
     MK 19 symbol, 4-16 (illus)  
     maximum engagement line, 4-18 (illus)  
     planned target engagement areas, 4-17 (illus)  
     sector of fire, 4-17 (illus)  
     sketch and data sections, 4-14 (illus)  
     target reference points (TRPs), 4-18 (illus)  
 range determination, 5-4  
     by AN/GVS-5 laser range finder, 5-10  
     binoculars, 5-7 (illus)  
     firing, 5-10  
     lateral distance, 5-10  
         measure deviation, 5-10 (illus), 5-11 (illus)  
     map, 5-6  
     pacing, 5-6  
     visual estimation, 5-5, 5-6 (table)  
         appearance of objects, 5-5  
         100-meter unit-of-measure, 5-5 (illus)  
 RBC (see rifle bore cleaner)  
 rear sight, 1-4 (illus)  
     adjustment, 4-10 (illus)  
 remount, H-14  
 rifle bore cleaner (RBC), 2-22  
 round-positioning block, 2-12 (illus)  
     installing, 2-16  
     removing, 2-11  
  
 scorecard matrix, 4-26 (table)  
 scorecards, 4-26 (illus)  
 sear assembly, 2-16 (illus)  
     installing, 2-19  
     removing, 2-15  
 secondary drive lever removal, 2-8, 2-9 (illus)  
     installing, 2-17, 2-18 (illus)  
 sighting bar, 4-9  
 stoppages, to clear  
     emergency action, C-5  
     immediate action, C-1  
         during combat, C-2  
         during peacetime and training, remedial action, C-2  
 stow pin, 3-5 (illus)  
  
 T&E mechanism (see traverse and elevating mechanism)  
 taking out of action, H-12  
 target board, 4-9, 4-10 (illus)  
 target engagement, 5-15  
     combined sights, 5-27  
     distribution of fire, 5-15  
         deep target using computed search, 5-23

- deep target using search fire, 5-21
    - linear target, 5-16, 5-25
    - massed fires, 5-27, 5-29 (illus)
    - moving target, 5-24
    - point target, 5-16
  - target reference points (TRPs), 4-18 (illus)
  - technical data, 1-6 (table)
  - terrain profile, construction, 5-35, 5-38 (illus)
    - marking of elevation, 5-37 (illus)
  - tests (see separate entries)
  - top cover assembly, 2-9 (illus)
    - installing, 2-17
    - opening, 2-5 (illus)
    - removing, 2-9
  - train and elevating assembly, 3-17
    - separate middle clamp on, 3-17
  - train and elevating middle clamp, 3-18 (illus)
    - attach to high-mobility multipurpose wheeled vehicle (HMMWV)
      - pedestal post, 3-17
  - training instructions, for instructors, 6-1
    - crew drills, 6-2
    - marksmanship, 6-3
    - mechanical training, 6-3
    - presentation, 6-1
  - training strategy, 1-8
    - components, A-1
    - initial training, A-1
    - sustainment training, A-1
  - traverse and elevating (T&E)
    - mechanism, 3-3, 3-4 (illus)
      - install in train and elevating assembly, 3-17
      - zero, 3-3, 4-5 (illus)
  - traversing handwheel, 3-3
  - tripod trail legs, 3-2 (illus)
    - front leg, 3-2
    - secure, 3-2
    - set, 3-1
  - TRPs (see target reference points)
  - vertical cam assembly, 2-15 (illus)
    - installing, 2-18
    - removing, 2-14
  - windage, 1-2
