United States Army Reserve

Section II**Terms****Combat vehicles**

Land or amphibious vehicles, with or without armor or armament, designed for specific functions in combat or battle. They are designed to be highly mobile in off-road operations. Some typical combat vehicles are tanks, self-propelled artillery, missile launchers, and armored cars.

Emergency vehicles

Police vehicles (see police patrol vehicles), ambulances, fire trucks, and crash-rescue vehicles.

Military design vehicles

Motor vehicles (excluding general purpose commercial design) designed according to military specifications to meet transportation requirements for the direct support of combat or tactical operations, or for training of troops for such operations.

Motor vehicle

An item of equipment, mounted on wheels, which is designed for highway or land operations or both and which derives power from a self-contained power unit, or is designed to be towed by and used together with such self-propelled equipment.

Nontactical vehicle

A motor vehicle or trailer of commercial design (to include motorcycles, mopeds, and all terrain vehicles) acquired for administrative, direct mission, or operational support of military functions.

Physical evaluation measures

A series of physical tests using a standard driver testing and training device.

Police patrol vehicles

Those vehicles used to perform day-to-day military police patrol duties.

Service school

An MOS producing school

Tactical vehicle

A motor vehicle of military design (to include all terrain vehicles, mopeds, and motorcycles) used to provide transportation in direct support of combat and tactical operations or the training of troops for such operations.
